Re: Surveillance Technology Annual Reports (7)

Dear Hon. Members of the Board of Directors:

I write to inform you that Secure Justice has reviewed staff's proposed Annual Reports for the technologies listed below to determine whether they are compliant with the requirements imposed by the Surveillance Ordinance.

BART staff has consistently and proactively sought out community feedback on various items prior to submitting them to the Board, and we want to publicly recognize those efforts and congratulate staff for continuing to engage in this manner since the ordinance was enacted in 2018. We believe this practice has increased community engagement and trust and has increased transparency into how BART uses various technologies as they provide services to their customers.

Compliant With Ordinance Obligations:

- Closed-Circuit TV
- Public Emergency Phone Towers
- Mobile Applications & BART.gov
- Automated License Plate Recognition
- Research Data Collection
- Police Body Worn Cameras
- BitFocus

Thank you for this opportunity to provide BART with our feedback.

Sincerely,

Brian Hofer

Executive Director
