

SAN FRANCISCO BAY AREA RAPID TRANSIT DISTRICT

MEMORANDUM

TO: Board of Directors

DATE: June 19, 2026

FROM: General Manager

SUBJECT: BART CY25 Annual Report: Sustainability

Attached is the “Calendar Year 2025 Annual Sustainability Report” presentation that will be presented at the June 25, 2026 BART Board meeting, as an information item. In April 2017, the BART Board adopted a revised Sustainability Policy. In support of the Policy, the District released the 2015-2025 Sustainability Action Plan (SAP) in December 2017. The SAP is a 10-year plan that identifies sustainability goals and actions to be taken throughout the District and performance measures to evaluate the achievement of those goals.

In mid-July, BART will publish the Calendar Year 2025 Annual Report: Sustainability, which summarizes BART’s implementation of the Sustainability Action Plan, with a focus on Calendar Year 2025 (CY25). The report has been prepared with input from experts in numerous BART departments. It contains a collection of case studies from CY25 that highlight BART’s achievements in sustainability and a summary of BART’s sustainability performance metrics.

Because 2025 was the final year of the 2015-2025 SAP, this will be the final annual report on that plan. The new 2026-2035 SAP was published in January 2026 and can be viewed online: <https://www.bart.gov/sustainability/action-plan>. Future annual reports will report on the new plan.

Over the past decade, BART has made remarkable progress in reducing greenhouse gas emissions, keeping energy use flat even while expanding the system, improving water efficiency, and improving access. This report reviews our accomplishments while committing staff to pursue deeper reductions in our resource use, improve efficiency, and find creative solutions that benefit both BART and the planet.

If you have questions, please contact Boris Lipkin, Assistant General Manager, Planning & Development, at boris.lipkin@bart.gov or (510) 464-7110.
