Prohibition orders allow BART to keep disorderly conduct out of the system and can bar an offender for up to one year. TSAC ensures that the prohibition order system is working for BART and the public.

You can help TSAC:

- Create and evaluate procedures for prohibition orders
- Establish training procedures for personnel involved in the issuance and enforcement of prohibition orders
- Provide reasonable notification to any riders who might be subject to a prohibition order
- Monitor the issuance of prohibition orders and provide an annual report
