

SAN FRANCISCO BAY AREA RAPID TRANSIT DISTRICT

MEMORANDUM

TO: Board of Directors

DATE: October 17, 2025

FROM: General Manager

SUBJECT: BART Sustainability Action Plan Update

At the October 23, 2025 BART Board meeting, staff will provide an information update on the BART Sustainability Action Plan (SAP). In April 2017, the BART Board adopted a revised Sustainability Policy. In support of the Policy, the District released the SAP in December 2017 that included goals and actions through 2025. As we approach the end of 2025, a new 10-year SAP will provide updated goals, targets, and actions to position the District to continue its leadership in environmental sustainability.

The update will provide a background on BART's Sustainability Program, proposed metrics, and drafted actions for the SAP. The SAP maintains seven focus areas from the previous plan that are based on the American Public Transportation Association (APTA) sustainability categories. Proposed actions are based on internal and external stakeholder feedback gathered from meetings and surveys. The SAP draft is available for public feedback at [BART.gov/SAP](https://bart.gov/SAP) until October 31 and the final SAP will be published in December 2025.

If you have questions, please contact Val Menotti (VMenott@bart.gov), AGM, Planning & Development.
