Adoption of Resolutions of Local Support for MTC's Safe and Seamless Mobility Quick-Strike Program

PURPOSE:

To request that the Board of Directors adopt the required Resolutions of Local Support in order for BART to be an eligible recipient of the Metropolitan Transportation Commission's ("MTC") Safe and Seamless Mobility Quick-Strike Program funds.

DISCUSSION:

MTC's Safe and Seamless Mobility Quick-Strike Program is a one-time, competitive grant program within the One Bay Area Grant program ("OBAG2") framework. MTC has programmed \$54.4 million in federal funds to support local and regional projects that can be implemented quickly to benefit communities responding and adapting to the COVID-19 environment. The Safe and Seamless Mobility Quick-Strike Program emphasizes bicycle/pedestrian safety and mobility, connections to transit, and projects that advance equitable mobility. MTC's adopted OBAG 2 guidelines require applicants for Safe and Seamless Mobility Quick-Strike Program funds to adopt a Resolution of Local Support.

To address local needs throughout the region, and encourage community-based project investments, each County Transportation Agency(CTA), on MTC's behalf, nominated projects for their county area for Safe and Seamless Mobility Quick-Strike Program funds. Nominated projects are required to submit a Resolution of Local Support for each project no later than May 21, prior to MTC staff presenting the list of recommended projects for adoption to the Commission at its June meeting. BART staff worked closely with San Francisco County Transportation Agency (SFCTA)and Contra Costa Transportation Authority (CCTA) on the following nominated projects:

Embarcadero Station Platform Elevator Capacity and Redundancy Project

The Embarcadero Station Platform Elevator Capacity and Redundancy Project will procure and install a new redundant elevator at the north end of the Embarcadero BART/Muni Station, refurbish Muni's existing elevator, and rebuild and widen stairs located in the north and south end of the station, improving the station's capacity, as well as customer experience and access. The Embarcadero BART/Muni station served thousands of community members daily, from San Francisco and the region, before the pandemic. The station is in a key regional area of employment, education, and tourism, and its transit services are key for the area's economic recovery from the COVID-19 pandemic.

Lafayette Town Center Pathway/BART Bike Station Project

The Lafayette Town Center Pathway/BART Bike Station Project is a joint effort with the City of Lafayette. The project will construct a new modular, self-park bike station at the south entrance of the Lafayette BART station, as well as a new pedestrian-oriented plaza and shared-use pathway to improve the connection between the south entrance and downtown Lafayette. This project is included in the current Measure J Expenditure Plan. However, due to concerns with the impact of COVID-19 restrictions on sales tax revenues, CCTA has adopted an allocation plan that prioritizes projects such as this one for non-Measure J funds, which will lighten the burden on constrained Measure J funds.

Bicycle, Pedestrian, and ADA Improvements at Pittsburg/Bay Point BART Station Project

The Bicycle, Pedestrian, and ADA Improvements at Pittsburg/Bay Point BART Station Project will provide access improvements that were identified in the North Concord to Antioch BART Access Study (2018). The project will construct a new low-stress Class IV bikeway where there are currently no bike facilities, repair and regrade the adjacent sidewalk, install a one-story ramp and bike stairway channels at the station entrance, install Class II bike lanes in the station parking lot, and implement wayfinding. These facilities will provide important biking, walking, and access, connecting the Pittsburg/Bay Point BART station, Bailey Road in Pittsburg/Contra Costa County, and the 15-mile Delta de Anza Regional Trail.

Although this project is not included in the Measure J Expenditure Plan, CCTA selected this project for nomination for Safe and Seamless Mobility Quick-Strike Program funds based on BART's prior requests for funding to improve bicycle and pedestrian access at this station. Additionally, BART staff previously applied for grant funding for this project from the Active Transportation Program, but this project was not selected for state or regional funding.

FISCAL IMPACT:

An award of Safe and Seamless Mobility Quick-Strike Program funds will provide additional funding for capital improvement projects at the Embarcadero Station (\$3,144,302) and Pittsburg/Bay Point Station(\$1,510,000); and will fully fund a capital improvement project at the Lafayette Station (\$1,825,000).

ALTERNATIVES:

Do not adopt the Resolutions of Local Support. If the Resolutions of Local Support are not adopted, then BART will be ineligible to receive funds from the Safe and Seamless Mobility Quick-Strike Program.

RECOMMENDATION:

Adopt the following Motion.

MOTION:

The BART Board of Directors adopts the following Resolutions:

- The Resolution, “In the Matter of the Approval of a Resolution of Local Support for a Safe and Seamless Mobility Quick-Strike Program Application for the Embarcadero Station Platform Elevator Capacity and Redundancy Project”; and
