5. BART Public Restrooms Update

Ni Lee gave the presentation on the reopening of BART public restrooms.

She shared at BART's above-ground public restrooms, BART has completed the enhancements by painting and spot repairs at all 64 public restrooms on the A, C, L, M, W, and R lines.

She stated after September 11, 2001, the District closed all public restrooms as a security measure. Above-ground public restrooms were reopened shortly thereafter, whereas the underground restrooms have remained closed as they pose higher security risks. She added that all underground San Francisco station restrooms from Embarcadero to 24th Street/Mission BART Stations remain closed. In the East Bay, Lake Merritt, 12th Street, 19th Street, and Downtown Berkeley are closed. There are two (2) underground public restrooms under construction at Powell Street BART Station and at 19th Street BART Station. El Cerrito del Norte BART Station, above-ground, also opened with a refurbished restroom this year, 2021.

Underground Public Restrooms:

- 10 underground restrooms closed after 9/11 in 2001.
 - Two (2) restrooms under construction (Powell Street and 19th Street)
 - Eight (8) station restrooms underwent a condition assessment

 - Four (4) restrooms present higher security risks
 - Eight (8) restrooms – Opportunity to improve accessibility (Downtown Berkeley, Lake Merritt, 12th Street, Embarcadero Street, Montgomery Street, Civic Center, 16th Street, and 24th Street.)

He added lighting in restrooms can be challenging and at other BART restrooms, the doors to enter and exit can also be challenging as they can be heavy/hard to open.
